0 - AKA How Starfire Got Her Groove Back

Raven was just spending another night reading, everyone else having gone out. It was nearly eleven when Raven's blissfully quiet evening was interrupted by the door slamming and the loud high pitched wailing that could belong to no one other than Starfire. Irritated, but also concerned, Raven sighs loudly as she shuts her book and enters Star's room where the Tamaranean is found sobbing quite obnoxiously into her hands as she sat on the edge of her bed.

"What's the matter Starfire?" Raven asks in her usual monotone voice, the gothic teen standing far away in the door frame as Star managed to loudly snort up the long strands of snot hanging from her tear covered face before looking at Raven.

"Robin says he does not any longer find me attractive!" Starfire wailed before picking up where she left off by sobbing twice as loud as before. In an awkward position for anyone, especially the stoic Raven, the empath

could hardly let her friend suffer, so she entered the room and sat down on the bed next to Star, who only stopped crying for a second to look up at her friend before resuming again.

"Come on Star, I'm sure you are just misinterpreting things. He loves you. Plus you always have trouble with humans, even I do sometimes."

"I am not! He made it very clear that he does not like me without the cover of clothes!"

"You mean naked right?"

"Correct. He says our 'tools' are 'not compatible', but I know for a fact that my Schmel will fit in him!"

"Wait a minute. What do you mean you would fit in him?"

"Here I will show you." Starfire says as she wipes tears from her face and stands up in front of Raven before going to unbuckle her pants.

"Star what are you doing?" Raven asks concerned, but not worried enough to stop her or move away.

"Here see!" Star cries out as she pulls a massive foot long dick out of her tiny short shorts, "He says he finds it "too much" for him to handle, adding both physically and emotionally. He was the only one I loved here! Now what am I suppose to do?!"

"Where did you hide your? Never mind, You know Star, if you really want to use your Schmel, or huge dick as we call it here, I know someone who might be interested."

"Oh really!" Starfire asked with a resparked joy in her eyes, sitting close next to Raven so their thighs were touching "Who would like to receive my, as you say, 'huge dick'?"

"Oh I don't know." Raven say seductively as she plays innocent while placing a hand on Star's knee,

"Someone in this room maybe."

"Who else is in here!" Starfire cries out, jumping to her feet as she looks around her room before hearing Raven laugh as she takes off her hood and cloak, her pale slender body now only covered by her tight leotard which showed the outline of her tight cameltoe quite clearly.

"I was thinking me stretch."

"Oh good idea! Stretching is most important!" Starfire happily replies, the lanky teen performing all sorts of stretches before turning away from Raven and touching her toes, her tight ass almost ripping through her shorts as she reaches down as low as she can go (which is pretty far) before Raven lays her hands on her backside, making Star gasp before standing back up to face Raven.

"Did you mean that you want to breed with me?" Star asks blushing, Raven taking her by the shoulders and pulling her in close before giving her a passionate and very tongue heavy kiss.

"Yes I did!" Raven laughs in her cute restrained manner, "Now lose the clothes."

"O-K!" Starfire responds with a big toothed smile, both girls quickly shedding their clothes before Raven throws Star onto her bed and sat down directly on Star's face.

"You start licking my pussy," Raven instructed her submissive friend, "And I will suck on this right here."

She said licking her lips before spitting onto Star's throbbing dick.

"MMMGGHHH!" Star replied, her mouth full of Raven's tight slit as the blue haired teen straddling her took her fat dick in hand and slowly worked her mouth around the tip, making Star's legs gently kick and curl as Raven's tight seal around her dick became more pleasurable upon hitting the back of Raven's throat as she forced herself further down onto her friend's member. Soon both girls were going to town on each other, Raven loudly slurping

and bobbing up and down on Star's dick as Star eagerly lapped up Raven's honey pot. Within ten minutes Starfire's feet were kicking and moving quite erratically while her hands were gripping tightly to the bedsheets, it was quite clear she was about to pop at any moment and Raven was almost ready to blow too.

Making sure to finish the job, Raven timed her thrusts just right until Star let out a high pitched whine as both girls came into the other's mouth, Star receiving a face splattering orgasm from Raven while Raven herself was forced to swallow a gigantic load. But Raven was not aware of how much Tamaranean's cum, and she found herself swallowing load after load of boiling hot gooey cum, Star happily wailing and crying underneath her as Raven became quite concerned as she had been swallowing for nearly thirty seconds. Trying to pull away, she finds herself held down by Star's hands on the back of her head as the orgasming teen kept pumping more and more cum into Raven.

"Oh goodness Raven! Please keep drinking from my hose you unclean prostitute!" Star moaned with a giggle, quite impressed with her own dirty talk

Soon the gothic teen had tears rolling down her eyes as she bloated horribly with cum, her tight core swelling and sloshing loudly as Star's pleasurable screams oscillated wildly as she filled Raven's gut with her seed. After nearly two minutes of non stop ejaculating, leaving Raven blue in the face, Star

finally stopped and let Raven go, who quickly pulled off her dick and rolled onto her side, her belly now tremendously inflated, leaving the blue haired girl looking like she was nine months pregnant.

"Oh my Raven! That was most 'awesome'!" Starfire purred between her panted breath as Raven laid on her side and moaned loudly, her hands running across her stuffed belly which was noisily swirling and sloshing with hot bubbling cum.

"Ohhh Star you came way too much into me!" Raven whined as she weakly got to her feet and, finding herself unable to fit in her leotard, simply put on

her hood and cloak.

"But that is how we always show our love on my home planet!"

"Its fine Star, just never, ever, again. Okay?"

"Fine." Starfire said sheepishly as Raven left and departed for her quarters, the bloated teen having to use the walls to support her new belly weight. Entering her room, Raven felt the urge to defecate, and quickly waddled to her toilet as she sat her pale round cheeks down and, with both hands wrapped around her inflated core, squeezed her mass and cried out as a loud wheezing fart painfully blew out of her for nearly thirty seconds straight, bringing tears to Raven's eyes before it suddenly became extremely wet, Raven moaning in agony as huge globs of Star's cum blasted out of her ass in strong, painful contractions.

"OOOWWW!" Raven wailed, trying to restrain herself but finding it quite hard to do so as she was compelled to fart intensely over and over again. Placing her hands on her knees, Raven screamed in terrible pain as her butthole felt like it was going to rip from the gigantic blasts of spunk that was flying out of her. After five minutes of hell Raven was near hysterical, her anus throbbing miserably as she felt the strongest blast building up inside of her anal cavity.

"No please, please!" Raven begged, repeating her favorite mantra, Azarath Metrion Zinthos, over and over again before a bubbling in her gut suddenly exploded into an asshole breaking eruption as Raven lets out a blood curling scream before passing out directly on the toilet, her ass letting out countless farts throughout the night as Raven was quite unaware of the other side effects of ingesting Tamaranean cum Waking up still on the toilet, Raven groans in discomfort, her asshole painfully pulsating in rhythm with her heart. Looking down at the ground, she sees it is covered in Starfire's lady spunk and when she spreads her legs she sees the toilet is likewise overflown with cum. After flushing, Raven tries to get to her feet but quickly falls onto all fours, her legs completely dead from having slept on the toilet all night.

Trying to crawl away, Raven makes it half a foot before a sharp pain in her belly makes her double over and push, the blue haired teen screaming in agony as she feels her virgin hole spread slowly around what feels like a baseball, Raven wincing her eyes and shaking from effort before it finally pops out of her. Collapsing down on the spunk covered floor, Raven looks between her sprawled legs to see not only a large green mucus plug laying on the ground but also her own swollen, gaped, and tremendously dilated anus in her shower mirror, her button now as wide as a 20 oz soda bottle.

"What is happening to me?" Raven cries out as another strong contraction races through her rectum, forcing her to push with all her might over and over until finally she feels something quite large pressed up against her hole. Taking deep breaths and bawling her hands into fists, Raven wails in pain as

something large and squishy emerges from her backdoor, spreading her to nearly four inches wide as Raven fought to empty her bowels. Giving one last big push, Raven screams out as a large larva worm pops out and slides across the floor complete with umbilical cord, leaving Raven's pooper a gaped and prolapsed mess, long strands of leftover sperm easily seen inside her moist cavern.

"Is that what I think it is?" Raven asks herself as she takes the umbilical cord in hand and pulls with all her might, the teen managing to rip it out of herself before she gets on all fours and begins chanting her mantra over and over again, her ruined hole slowly shrinking back down to new in a matter of minutes.

Getting to her feet, Raven picks up the blue worm creature and realizes that sure enough it is another Silkie, except this time it has eyebrows like Starfire and the general snobby attitude of Raven. Carrying her newborn to Starfire's room, Raven doesn't bother to knock and simply barges in and wakes the sleeping titan, who gets up with a big yawn before her eyes light up with glee upon seeing the worm in Raven's hands.

"Oh how wonderful! I see you have experienced the joy of Tameranan motherhood!" Starfire happily cried out, barely able to cease her childlike

laughter as she quickly got out of bed and started playing with the blue worm in Raven's hands.

"It wasn't exactly joyful, my asshole was basically destroyed because of it. Why didn't you tell me that would happen?" Raven demanded, no where near as excited as Star over the new life she brought into the world.

"Well I mean you sucked my schmel, what did you think would happen?"

"I don't know, not this, and why is it a worm anyway? Shouldn't it be a little you?"

"It takes the form of whatever the seed giver wants, and I really wanted a second one. Isn't he cute? He looks like both of us!"

"Yeah sure, you can keep him, but be aware that no human is going to want to date you with that schmel of yours."

"Is it really that strange?" Starfire asked with a hint of sadness in her voice, Raven laying a hand on her shoulder before gently telling her "Yes" and leaving the room.

Putting RaveFire down, as she named it, Star drops her shorts, her schmel ducked away in her anus as usual. Pulling it out with a wet slurp, Star's hole winks a few times before shrinking back to new, her people's power making any form of sexual intercourse and subsequent births painless.

"Why did I have to be one of the few females "gifted" with such a curse? I would do anything to get rid of it."

"Anything?" A voice from the shadows asks before emerging to reveal itself as Starfire's older and cruel sister Blackfire.

"Sister! What are you doing here? No doubt some evil scheme to mess with me!"

"No sister not at all, in fact, I just want to make an honest trade, you give me your amazing schmel,"

Blackfire said while undoing her pants, "And I'll give you my, well" She said dropping her pants to reveal her ultra tight and fat lipped pussy, "Pretty nice huh? And it is still in very good condition."

"What is in it for you? Why would you do this for me?"

"Why? Because I already have two holes but no stick. Is it really s weird that I want in on some of the fun. You and Raven sure looked like you had fun last night, in fact I got it all on camera, I wonder what Robin would think of this. He doesn't like your schmel does he? Most Earth boys don't. I guess now that you are out of the picture I can-"

"FINE JUST STOP!!!" Starfire screamed in rage, her eye's momentarily lighting up green before she calmed down as Blackfire laughed and gave her a side hug.

"Sure no problem, just come up to my ship and I will have you ready to fuck Robin by sunset. Deal?"

Blackfire asked putting out a hand, Starfire debating momentarily but, upon realizing she has no real choice, reluctantly put her hand out and shook.

"Very good little sister, I promise you won't regret it." Blackfire smirked as the two were suddenly transported to her ship high above the planet.

Inside Blackfire's ship, Starfire was told of the easy procedure to swap her genitals with her sisters.

Tamaranean science had come a long way in this field, and all it took was stepping naked inside two separate pods and flipping a switch. Blackfire, though happy at the prospect of having her own foot long dick, was not doing this out of her love of her sister. She made sure to make some "adjustments" to Star's pod, ensuring a delay in the waking of her sister. Leaving her pod first, Blackfire took her new dick in hand and lovingly stroked it, letting out a happy snort upon it getting slightly hard which she was happy her sister was not able to hear. Walking over to her sister's pod, she sees that Starfire now has Blackfire's tight fat pussy just like she is suppose to.

"I hope you like it sister, because it is going to be quite sometime before I let you go home." Blackfire sinisterly told her sleeping sister as she helped her out of the pod and laid her down on her massive bed, the room itself filled with a plethora of intergalactic sex toys. Going to her closet, Blackfire rummages through her belongings before going "AhHa!" upon finding a small see through choker collar.

"This little device should make you a lot more fun." Blackfire lovingly told her snoozing sibling as she snapped it around Star's thin neck, the device instantly lighting up a pale blue color just as Star started to wake her eyes.

"Sister." She said rubbing her eyes with a yawn and sitting up on the bed, "Why are we in your room?"

"Relax, why don't you take a look down." Blackfire said calmly pointing to Star's crotch, to which Star, upon remembering the whole reason she was there, instantly woke up and looked down before squealing happily and clapping her hands in joy upon seeing her brand new vagina.

"Oh it did work! I am overcome with happiness! I can not wait until Robin sees it!" Starfire said with childlike blissfulness as she stood up, only to be pushed back down quite harshly by her sister.

"It will be quite some time before you show him that, first we need to try our new bodies on each other."

"No way!" Star said angrily, "I would rather go without mustard then-then-OOOhhhhhh I feel strange!"

Star whined as she suddenly got hot, her collar likewise turning from blue to orange.

"Oh you silly girl! You were so focused on your new pussy that you didn't even notice that collar around your neck.

"Huh?" Star uttered as she reached around her neck and felt the device locked onto her, "What is this thing?"

"It is simple, it transforms all aggression into submissive horniness, go on you stupid cunt sister of mine and try to get out."

"You no good evil doody face!" Star yelled as her hands and eyes glowed orange, "I swear I will-" Star screamed before suddenly moaning and breaking out in goose bumps, her nipples becoming rock hard and her new slit becoming quite wet.

"I told you you stupid bitch, the angrier you get, the hornier you get, come on then you soon to be slut, get madder."

"I swear Blackfire, when I get out of here I'll-OOOhhhhh"

?"You'll what Star? You'll cum like a little whore? I think you are right about that." Blackfire growled as Star, in extreme heat, tried to cover her trembling and wet body, backing up further onto the bed as Blackfire went to her wall and picked up a quite expensive piercing gun, "Before you cum like a whore we need to make you look more like one, I do believe Robin will love you after this."

"No please stop!" Star whined as her sister crawled onto bed and tore her hands away from covering her cute perky B-Cups, "What are you doing sister?"

"Making you better that's all." Blackfire said licking her lips, positing herself on top of Star so the helplessly weak girl, made that way by the collar on her neck, had her arms pinned against her body by Blackfire's strong things.

"Lets see, which nipple first?" Blackfire pondered to herself, biting and licking the tip of the gun before coming to a rather wicked conclusion, "I know, why not both at once?"

"No please!" Star whined as Blackfire bent down and licked and sucked on each of her nipples, biting and twisting them in her mouth so they were throbbing hard and pointy before squeezing her breasts together so her nipples were touching each other.

"Here goes nothing!" Blackfire laughed quite sadistically as she pierces her sister's rock hard nipples together, forcing her breasts to make a constant and rather tight crack below the point of connection.

"My breasts!" Star whined as she suddenly felt them expand slightly, before a painful bubbling in her

chest made Star bite her lip and moan in agony before crying out and thrashing wildly as her breasts practically doubled in size, giving her a pair of huge DD's.

"Quite impressive huh?" Blackfire asked as she stroked her dick in plain sight of her sister, "The piercings make the wearer's breast grow quite large, and with them already squeezed together so nicely, I figured why not test my new member you so kindly gave to me on them."

"No please sister! This is not right!" Star begged as Blackfire ignored her pleas and positioned her rock hard member right between the deep long crack of Starfire's bound breasts. Star begged her sister not to but Blackfire forced the tip of her member between her large breasts anyway, eliciting a happy and rather cute yelp from both girls as Star blushed deeply and tried to look away from her sister.

"No Star. This is not how Robin will want you to make love to him." Blackfire told her sister as she grabbed her by the chin and made her watch, "I'll show you how how to be a good little slut." And with that Blackfire forced more of her cock between Starfire's large, soft, squishy breasts, both tits so mushed together that Blackfire had a hard time not coming on the first pump.

"Please I don't want to watch!" Star begged, Blackfire soon having to use both hands on the back of the girl's head to force her to look as Blackfire started pumping in and out of Starfire's breasts.

"I'm going to cum right on your face, you better open your mouth too or I will just tit fuck you again until you too. Got it?" Blackfire asked while panting in heat, Starfire slowly giving up resistance to the point where her sister was able to let her go and instead brace herself on the bed as she was

now rapidly sliding in and out of Star's squishy boobs. The defeated titan was unable to do anything but grab up fistfuls of blanket and watch as her sister pounded her for nearly five minutes, long enough to give the poor teen some friction burns on her inner breasts before Blackfire gave her a telling look. Starfire opened her mouth quite wide, Blackfire giving a few more thrusts before groaning deeply as she came onto her sister, Star forced to lay there as Blackfire blasted multiple loads into her mouth, nose, eyes, and hair. By the time Blackfire was spent, Star's face and neck were coated white with sperm. Pulling out of Star's tits, Blackfire "accidentaly" lets out another orgasm right before popping her tip out from between Star's breasts, causing cum to bubble and spary out from the other end, giving her a turtleneck of cum as well as soaking her breasts in the sticky substance.

"Now Star, lick you face clean as much as you can like a good little slut." Blackfire demanded her sister, telling her quite sternly so the freshly fucked teen obeyed and used her long tongue to gather all the cum around her mouth into a large load which sat in an overflowing pile on the middle of her tongue.

"Come on Star, I don't need to tell you to swallow it too do I?" Blackfire asked innocently yet threateningly at the same time, Star wincing her eyes shut as she slowly and quite loudly gulped down the salty load.

"Can you make my breasts not pierced now please?" Star asked in a shaky voice, only to gasp loudly as Blackfire, with her dick rock hard again, stood at the edge of the bed with the piercing gun in her hand.

"Not until we train that mouth of yours not to ask such stupid questions."

Crawling onto the bed with the piercing gun in hand, Blackfire laughs as her cum coated sister tries to

back away. Starfire soon runs out of places to crawl too when she bumps into the bed board behind her.

Having her sister cornered Blackfire grabs her harshly by her hair and pulls her face towards the piercing gun.

"No Blackfire! I insist that you desist right now!" Starfire wailed, scratching frantically at her sister's arms until the collar on her neck converted her resistance into docile horniness, her body going weak as Blackfire demanded she open her mouth and stick her tongue out.

"Now little sister, this piercing will make Robin just want to fuck you silly I promise."

With no choice or energy to fight back, Star swallowed her pride and stuck out her tongue meekly, Blackfire letting go of her head to grab the tip of her tongue and pull it out as far as she could before piercing it not once, not twice, but three times starting from the very back and in a straight line to the very tip, where she applied a ring instead of a stud. Letting go of her tongue, Starfire falls back and soon gets on her side and cries as she sticks out her freshly pierced tongue and runs her hands over the studs and the one ring on the tip of her tongue before she suddenly felt her tongue double and then triple in length. The girl was now able to lick up to her eyebrows, but that wasn't the only transformation it caused to her.

"I hope you like it sister, because its time to test it out on my new dick here."

Not wanting to suck what was once her own dick, Starfire opens her mouth to say 'No Way', but instead says, 'I would love it if you throat fucked me!', upon which she gasps and quickly covers her mouth, blushing deeply.

"See sister, your piercings not only make your tongue longer and easy to control, it also makes you unable to refuse any sexual request. Besides, how are you suppose to please Robin if you can't even suck dick?" Blackfire teasingly asks her sister. Starfire, having no energy to fight back, gives way to her sister's advances as Blackfire sits her strong, round athletic buns onto Starfire's bound breasts, using them as a makeshift seat while prodding Star's mouth with her dick.

"I wonder Star, what do I want to impregnate you with? When you throat fucked Raven you made her give birth to another Silkie, but I was thinking, what better way to train that tight little ass of yours then with the eggs from your Earth's ostrich? I hear they are quite big."

Wanting to yell out 'No! Anything but that!' for such a large egg would wreck her virgin anus (which can not heal itself with the collar on), Starfire instead yelled 'Please sister! I would love if you did that!'

"That's is so good to hear you little whore, I can't wait until your screams fill this ship as you push lets say, a half dozen of them out of that cute little rump of yours. Now open wide Star for your medicine."

Opening as instructed, Starfire waits for her mouth to be filled but instead Blackfire just puts the tip in, instructing her sister to use her new tongue to wrap around her cock and tug before she would deepthroat her. Obeying with humiliation in her eyes, Starfire uses her elastic and long tongue to wrap around Blackfire's member several times before tugging strongly and forcing some of it in her mouth, the girl readjusting her tongue before pulling even more in. Blackfire meanwhile moaned in pleasure, the cold studs and ring on Star's tongue making the hair on the back of neck stand on end while her dick

was pulled ever further into her sister's mouth.

"I'm going to throatfuck you raw little sister before filling your belly with my load, which of course will turn into some rather large eggs." Blackfire told her groaning and gurgling sister as her dick now started hitting the back of her throat, causing the unexperienced titan to choke and gag strongly, coughing up saliva onto the rest of Blackfire's dick as she no longer used her tongue to swallow more cock.

"Here sister, let me help." Blackfire told her as she lovingly petted Star's face and head before taking the long strands of red hair that always hung on either side of her head and used them as leverage to force more of herself down into her sister's throat. Starfire, rolling her eyes back and gagging strongly, tries to fight back, her hands slapping her sisters body wildly before accidently landing on Blackfire's large C-Cups.

"Right there sister, play with my tits, they are so soft and large aren't they?" Blackfire asked laughing as Starfire, turned on greatly by playing with her sisters chest, was able to open her eyes back up, her lust easily seen by

Blackfire who found that Star had gotten "used to" having dick shoved down her throat, the girl no longer gagging quite as strongly.

"You learn quick sister," Blackfire moaned pleasurably as she forced the rest of her foot long down Star's throat until she could go no more, "Use your tongue to make me cum quicker, and keep playing with my breasts, I am going to throat fuck you hard."

"MMMgghhh!" Star moaned, as Blackfire started breeding her throat, pulling in and out at first slowly, but quickly picking up the pace as Star's combination of tongue and nipple twisting made her dominating sister come close to blowing her load several times.

"Ohhh my Star you are a first rate little whore! Here get on all fours, I'm about to fill you up." Blackfire laughed as she forced Starfire to get on her hands and knees, her body supported by her arms straight bared to the bed as her neck repeatedly bulged and unbulged with her sister's thrusting member.

"Here it comes little one! Swallow every drop!" Blackfire cried out as she pulled out almost all the way before cumming strongly, blasting a huge load that quickly filled her sister's cheeks and forced cum to spray out of her nose until she started swallowing in large gulps her sister's spunk. With tears running down her defeated face, Starfire kept swallowing the salty loads in gurgling bubbling mouthfuls, a hand soon going to her belly as she started to bloat with cum. Blackfire, with both hands holding Star's head in place, looked up the ceiling and wailed in orgasm as she was intent on making her sister explode with cum. Starfire's belly soon expanded to that of a women pregnant with triplets, her button even popping out as Blackfire just kept cumming and cumming. With no where else to go, Starfire felt the cum move through her bowels, coating her digestive system white as Star moaned in pain and placed both hands on each of her round firm cheeks, spreading them apart as she let out a huge wheezing fart, making Star force down with everything she had before taking a short rest. When she tried again, however, Starfire nearly fainted as a tremendous blast of cum exploded out of her backdoor in a painfully wet and rather nasty fart, painting Blackfire's wall an even shade of white as the cumming futa finally

pulled out of her sister and went about coating her whole body in cum before finally stopping.

"Oh that was great Starfire." Blackfire laughed, stroking her limp dick with love as Starfire, with her massive gut, rolled onto her side and curled her legs in tight as cum continued to squirt out of her anus

in bubbling farts.

"My tummy and butt hurts!" Starfire whined to which Blackfire came over and started stroking her hair like a pet.

"I know Star, but it will only get much much worse when the eggs form in your belly, pass through your bowels, and eventually rip your asshole apart, so try not to be such a baby so early on. I know! How about we wash you up huh?"

Leading her cum filled and coated, bow legged, pregnant looking sister to a small bath tub overflowing with bubbles, Blackfire grins with sadistic satisfaction, finally able to humiliate her goody two-shoes sibling.

"Blackfire my stomach is churning so much!" Starfire whined as she clenched her belly and strained herself, forcing out a large glob of cum in a wet bubbling fart.

"I know little sister, it can't be helped." Blackfire said with feigned sympathy as she helped Star into the bath, "Come tomorrow the pain will be even worse as the half dozen eggs move through your bowels.

Tell me Star, do you know how big ostrich eggs are?"

"No." Starfire answered meekly as she settled into the tub, her round belly poking through the surface while her sister picked up a sponge and started to scrub Star's face and hair clean.

"Well on average they are six inches long, five inches across. Even with your powers active they would hurt quite a bit, so stop your whining, cause it will only get worse."

"Can you at least unbind my milk pouches?"

"You mean your breasts? I kind of like them connected nipple to nipple, makes it easy to titty fuck you.

So if I do what are you going to do for me?" Blackfire asked with lust in her voice as she started scrubbing Starfire's lower back.

"What do you want?" Star asked with frightened eyes, looking to her sister for some form of mercy.

"Hmm what do I want?" Blackfire pondered as she kept cleaning her sister, the water turning white with cum, "I know, and you will like this because it helps both of us. I want you to get on all fours like an animal while I butt fuck you. What do you say?"

"How does that help me?" Starfire asked with hesitation in her trembling voice as Blackfire suddenly took her by the neck and bent her over the tub, Star's large belly pressing into the edge as Blackfire began scrubbing the girl's dainty little bottom. Starting with Star's taut round cheeks, Blackfire makes her sister blush deeply before Starfire gasped and tried, before her sister caught her by the neck, to run away as Blackfire began running the sponge up and down between the crack of her ass over and over again.

"If your asshole is loose then it will hurt much less when you give birth tomorrow, plus those knockers of yours will be free to hang, deal?"

"I do not like your deals sister. And I would rather keep my dignity then have you 'butt fuck' me."

"Dignity? You little slut!" Blackfire yelled as she pulled the frail girl out of the tub and dragged her naked and wet back to her room, holding her head up to a large device on the wall.

"You see that?" Blackfire screamed as she pointed to what looked like an oversized power drill attached to a three foot long, two inch wide, highly flexible screw, "That right there is the Anal Screw, and after it is applied it is practically impossible to get out, as it quickly hardens in place with a

simple push of a button. Now tell me little sister? Would you rather I free your whore breasts and butt fuck you? Or would you rather I apply the Anal Screw?"

"Butt fuck! Butt fuck!" Star wailed as she pissed herself, Blackfire laughing cruelly at her as she reached down and unhooked her nipples. Despite being free, her inner breasts, coated by cum when Blackfire jizzed in between them, only came free after Starfire painfully ripped her chest apart, dry cum crackling and falling to the ground as the round bellied teen was pushed face down into the ground as her sister got behind her with her foot long dick ready to go.

"Good choice sister. Now reach back and spread your ass for me." Blackfire demanded, her sister reaching back and pulling her cute rump apart before whining out as a blast of cum squirted out of her anus in a deep, painful fart."

"Please my ass is already so full!" Star begged, her sister ignoring her as she lined up against her cum drooling anus anyway.

"Still complaining? Now I am going to pop your black cherry in one butt busting swoop."

"Wait sister Ple-EEAAASSSSSSEEEEESSSS!!!" Starfire wailed as her sister shoved her dick against her virgin hole and, gripping onto Star's hips, drove the entire thick member in with just one ass breaking thrust.

"Good girl!" Blackfire purred affectionately as she pet the sobbing girl, her butthole still reeling from its sudden invasion as Black pulled out and dived right back in. Within seconds Star's jiggly cheeks were slapping off of Blackfire's hips as the titan tried her best not to scream.

"Please sister this hurts greatly!" Starfire bawled as Blackfire rode her like a bull, slapping her ass and pulling her hair the entire time.

"Just imagine I'm Robin, I'm sure he would love to butt fuck you now your are dickless, though by the time he gets to you your ass might be a little used."

"Robin. Robin. Robin. Robin." Starfire said over her panting moans, the titan closing her eyes tight as she tried her best to visualize being ridden by her crush.

"Use your pussy too, like this." Blackfire said as she took Star's hand and placed it on her pussy, "Rub yourself, and when you are about to cum, I will cum in you too."

"But sister-"

"Robin"

"But Robin, I don't want you to cum in me"

"Relax Star, you can't get pregnant again, and you just washed, I don't want to coat you in cum."

Blackfire told her as she picked up the already considerable pace, Star rubbing her clit and soon after her swollen nipples, managing to turn herself on after getting over the debilitating pain of being ridden like a piece of cattle.

"Oh Robin, yes, keep impaling my 'booty'." Star whined as she started moaning not in discomfort but in pleasure, her skin breaking out in a sweat as her pussy started dripping.

"Are you ready Starfire? I am about to blow!"

"Yes Blackfi-I mean Robin, cum in me, I am about to arrive at orgasm!" Star wailed as Blackfire pulled Star's hair hard, making her look up as she cried out and blasted a huge load up her sister's already cum filled rectum, the titan squirming uncomfortable underneath as her orgsam quickly passed and her anal cavity was cram packed full of jiz. Pulling out of her sister with a wet pop, Blackfire stepped back and watched in amusement as Starfire grabbed her ankles and let out a death cry as her ass projectile vomited nearly a gallon of fresh steaming cum all over Blackfire's carpet.

"My carpet is all ruined now Starfire! You are in big trouble!" Blackfire scolded Star like she was a child, while she laid on her side, pooper winking without rest, all the while forcing small globs of cum out of her back door in shrill bouts of gas.

"I'm sorry Robin-I mean Blackfire-I mean-"

"Just stop! No dinner for you missy! Straight to your cage!" Blackfire growled as she dragged Star once again by her red hair and threw her in a small cage with nothing but a bowl of jiz for food.

"Blackfire please I'm sorry!" Starfire pleaded as her sister locked the cage.

"I'm going to bed, any more words out of you and I'll break in your precious new pussy. Got it?"

"Yes."

"Good, now sleep, you have a big day pushing eggs out of your ass tomorrow."

Going to her bed, Blackfire falls into a deep sleep almost immediately, while Starfire, still having cum ooze out of her ass, tried her best to get comfortable.

"My sister is the worse! Why is she doing this to me?" Star asked herself quietly, crying gently until being alerted by the sound of movement in the room. Keeping quiet, Star becomes quite scared until letting out a huge smile when she sees who it is in front of her cage, her new born baby Ravefire.

Sitting in her cage, Starfire is overwhelmed with joy at seeing her love child with Raven, aptly named

Ravefire, sitting outside her cage.

"Ravefire!" Star shouts in a whisper, "How did you get here? Uh huh, okay, hung on the back of my leg while we teleported. What's that? You have magical powers!!!" Starfire squealed louder then she should have, Blackfire

loudly moaning in her bed before falling back to sleep, "Sorry Ravefire. But you have magical powers? A result of the union between me and an empath you say? Can you get me out of-You can? But the collar-" Star asked before hearing it unsnap and come off, Star now easily able to crush the lock and free herself from captivity.

"Okay lets go home. Wait, you think I should get revenge on my sister? Use the, oh no Ravefire it is suppose to be quiet hard to remove. And then make her-Oh my that is quiet evil." Star whispered as she pondered for maybe two seconds before eagerly agreeing, remembering, after all, that she still has half a dozen ostrich eggs in her tummy because of Blackfire. Holding the collar in hand, Starfire tip toes to her sister the best she can with her giant mass. Standing over her futa, dominating, and evil older sister, Starfire hesitates for only a second before snapping the collar around her neck. Giggling happily, Starfire prods her sister several times until her eyes open and she jumps straight up in her bed.

"What the hell are you doing up little sister? Looks like I am going to have to punish you some. Bend over now so I can pop that pussy of yours!" She demands, Star simply replying by pointing to her collar-less neck.

"You little bitch!" Blackfire screams as she raises a hand only to moan out loudly as her anger is converted into lust, "You dare put the collar on me!" Blackfire raves in uncontrollable anger, before spasming violently on the bed as she is turned on more then she has ever been in her life, and after a few seconds she is laying on her back covered in sweat, her eyes full of unbearable lust. Walking to the wall, Starfire takes the dreaded Anal Screw in hand and, with its three foot long, two inch wide elastic screw dragging on the ground behind her, Star stands over her sopping wet sister.

"My my my older sister," Star scolded the lust filled Blackfire, "How turned the tables have now reached."

"That's not how you say it!" Blackfire moaned out.

"Shut your vocal hole please, I mean 'bitch'" Star responded back, giving her sister a weak slap on the face, "You are a 'whore' able person, and you are going back home with this crammed up your behind."

"You are literally the worse dominatrix I have ever seen or heard." Blackfire responded weakly, too overcome by unbearable lust to properly smack talk back.

"Its pronounced 'Matrix' older sister, and I hardly see how that movie is applicable to our current situation, you unintelligent and very pretty 'slut'."

"I hate you so much right now Starfire."

"Good, because now it is the perfect time to 'screw' your ass." Star said raising the Anal Screw in hand as well as her eyebrows.

"Okay, that was much better, kinda corny, but better."

"Oh thank you older sister!" Star happily smiled, "But get on your hands and knees and raise 'dat ass'

vertically."

"And you lost it again." Blackfire moaned, "But I mean you have already humiliated me enough don't you think? Clearly you outsmarted me somehow, I must say you are the superior sister. Take this collar off and we can make up. Deal?" Blackfire asked with big puppy dog eyes, Starfire putting her guard down for a moment, a moment which Blackfire used to lunge at her sister before, mid lunge, crying out and falling face down in orgasm as the collar made her dick cum quiet strongly.

"You no good liar!" Star wailed, her eyes glowing bright green, "Now get on your hands and knees, pull your pants down, and prepare yourself!" She screamed at her older sister, her wire apparently having snapped as a result of Blackfire's pathetic attempt to betray her kind trust once again.

"Why don't you make me you little-AAAHHHH!" Blackfire cried out as Star roughly (wo)manhandled her older sister, dragging her off her bed and onto the ground. Going to Blackfire's wall of goodies, Starfire takes some special voice activated bondage cuffs and applies them to Blackfire's feet and wrists.

"Okay, now get on all fours!" Star ordered, Blackfire's body forced to obey as she stuck her round jiggly ass in the air.

"Stick your ass up higher!" Star ordered as Blackfire obeyed against her will, her butt raising up even higher.

"Higher higher higher!!!" Starfire screamed with her first genuine sadistic giggle as Blackfire's body obeyed and her butt was now as high as it could be without her standing on her feet, Blackfire's back arched quite low as her chests was pushed harshly into the ground.

"Please Starfire, the Anal Screw ignores all magical powers, it is nearly impossible to remove and the damage it does is permanent, no matter your powers!" Blackfire begged before yelping loudly as Star ripped her shorts down to her knees.

"Good, perhaps now you will learn not to mess with me!" Star angrily screamed as she placed the tip of the giant Anal Screw between Blackfire's tight round buns, right against her bleached little rosebud.

"No please wait!" Blackfire wailed before screaming out in agony as Starfire, with the handle in hand, pulled the trigger and laughed as the device began screwing into her older sister's rectum, slowly working its way into Blackfire's anal cavity as the futa laid helpless to do anything about it.

"It hurts!" Blackfire whined as the device loudly burrowed into her, inch after painful inch being forced into her pooper as her toes curled and her face contorted in overwhelming agony with just a hint of pleasure.

"You are taking every last inch up your butt older sister! You still have much to go!" Star sadistically told Blackfire as she kept pulling the trigger and forcing the bound girl's ass to swallow more and more of the butt sealing elastic screw. After a minute about half the device had been forced into Blackfire's shitter, and Starfire had no intention of stopping. Continuing to screw and laugh, Star became quite aroused

watching her sister squirm and cry below her, finally able after a lifetime of mistreatment to gain revenge on her evil sibling.

"OOOooohhhhh! OW! OW! OOOOWWW!!!" Blackfire sobbed, tears running down her face as her dick became quite hard, her colon by now quite excited from all the drilling.

"After this I have more in plan for you sister, so try to enjoy it!" Star happily remarked as the last few inches of screw finally entered Blackfire's rectum. Pulling the handle away, Starfire laughs as her sister's anus is left forever agape two inches by a large screw head which refused to budge either out or in.

"Okay, bondage things, let her move as she will." Star ordered, Blackfire immediately reaching both hands to her ass as she ran her finger tip around the edge of her sealed anus.

"I can't believe you did this to me Starfire!" Blackfire cried as her rock hard dick was on the verge of blowing its load.

"Then what happens next should be a real surprise for you." Starfire said with a twisted smile as she held the piercing gun in her hand.

Trembling in fright of her now empowered sister, and still reeling from having a three foot screw, well, screwed into her ass, Blackfire tries to crawl away from her piercing gun wielding sister, only to be stopped swiftly as Starfire flips the futa on her back, her dick still rock hard, and forces her ankles to both sides of her head.

"Hold in place please!" Starfire orders as Blackfire now is unable to move from her awkward position thanks to the magical bindings still on her hands and feet, her foot long dick just inches away from her own mouth.

"Starfire what are you doing?!" Black cried out as Star held the tip of her dick in her hand while moving the piercing gun dangerously close to her cock.

"Giving you a taste of your own medicine, though I suppose I should really say a taste of your own jizz."

Starfire calmly answered as she pierced the tip of Blackfire's dick, making her elder sister whimper as her dick doubled in girth and grew to an impressive sixteen inches long, the futa now having to move her head side to side to avoid her own mammoth cock slapping her in the face.

"Please Star! I promise I won't do anything mean to you again I swear!" Blackfire pleaded, Starfire simply letting out a cruel laugh.

"Blackfire, as far as I am concerned you can suck my dick." Star coldly replied as she held her sister by the jaw while painfully bending her dick and lining it up with her mouth, her rock hard cock popping into Blackfire's mouth and diving six inches down her throat, creating a visible bulge in her neck.

"I may have the eggs of ostrich in my rectum, but you will soon have them in yours without the ability to relieve yourself. Furthermore, you shall return home in this state. But to ensure that, I had better pierce your nipples together around your cock." Star smiled wickedly as Blackfire's eyes filled with panic as her large C-Cups were forced around either side of her dick, her nipples being brought together and pierced,

causing her breasts to have a sudden growth spurt into huge E-Cups.

"There we go! Now we do not even need the bindings." Star said causally as she removed Blackfire's special bindings, the futa finding herself still quite unable to move thanks to her huge dick being trapped between her breasts and crammed deep down her throat.

"MMMmmmm! MMMMmmmm!" Blackfire gurgled in panic as Starfire held onto Black's breasts at the point they were pierced and forced her giant tits up and down across Blackfire's hard dick, forcing the girl to give herself a tit and blow job at the same time.

"Think of a happy place sister, but more importantly think of as many ostrich eggs as you can, hold the thought in your mind dear sister." Starfire

sensually said while picking up the pace, her sister squirming and moaning in both panic and pleasure as her toes began to curl tighter and tighter.

"That's it sister. You will return home with a screw up your ass, your dick down your throat, your breasts pierced together, and with a belly full of backed up eggs." Starfire lustfully tormented her once dominating sister as tears began to roll down her cheeks, "Perhaps you will remember this next time you decide to plan any malicious plans against me and my friends. Now cum sister, cum and fill your belly full of eggs."

Unable to fight back and full of lust, among other things, Blackfire finally curled her toes as tight as can be and flexed strongly as she cried out before gurgling as a huge blast of semen shot down her throat and began to fill her belly. The hapless futa cumming over and over again as her tummy bubbled with hot jizz before bloating up.

"I hope your new dick was worth it Blackfire, because I suspect you will have much to explain to mother and father." Star said as she walked to Blackfire's control panel and set the course for their collective home world, all the while Blackfire continued to release torrents of cum into her now miserably swollen gut, "I will be taking your transport ship home if you don't mind, I am sure you can buy a new one. You will be home in a few days. Goodbye Blackfire, and enjoy my dick." Starfire said without a hint of sympathy for her defeated sister, getting into the pod and flying back home.

Landing outside the Tower, Starfire begins to feel the eggs inside of her ass start to demand release, and it was quite the task just to get to the main floor. Going to Robin's room to tell him of the joyous news of no longer having a dick, she knocked and waited as her crush opened, happy to see her before noticing her massive belly.

"Starfire! You're naked and, you're pregnant?" Robin asked confused as Starfire smiled happily.

"No Robin! Do you not see I no longer have a dick? And I am not pregnant, my ass is just full of eggs!

Speaking of which!" Starfire groaned as she leaned onto her knees and cried out as her swollen hole released a gush of goo as the first of the large eggs spread her pooper wide before shooting the egg out in a squirting fart onto the floor below.

"Oh my god what the fuck!" Robin yelled in horror as Starfire looked up at him with a giant smile.

"Now we can finally make love can we not?" Starfire asked with eyes shimmering full of hope as Robin

quickly threw a smoke bomb down and made a hasty getaway.

"No Robin! Why are you leaving now?!" Starfire cried out before grunting and forcing another huge egg out of her cute butt, "I no longer have a penis!"

Walking up on the once again crying Starfire, Robin rubs the sobbing Titan's back as she pushed another fat egg out of her ass in a squelching fart.

"Next time Starfire don't proposition him with your ass full of eggs. I am sure he will want to fuck you once you are, umm, no longer full."

Sniffle "Are you sure?" Starfire asked before crying out as an egg pushed through her puckered hole,

"Why are human boys so confusing?"

"Trust me I don't know either. Now, we should probably get you dressed and cleaned up, once you are done of course."

"Thanks Raven, you are a true friend"

"Not a problem. How did that happen to you anyway? And where have you been?"

"It is a long story. Perhaps we can talk about it girl to girl in your room?" Starfire asked looking Raven lustfully in the eyes.

"Agreed, but after you finish up."

The End???

(The question marks pretty much mean it isn't don't they?)
